

Data Dictionary: Historical Events Dataset

Summary

`historical_events.csv` lists 387 major economic, political, infrastructure and social events for Portugal, the 14 comparison countries and the EU from 1900 to 2025, one row per event, loaded into the staging table `aid_staging.stg_events`.

Item	Value
Rows	387
Columns	6 (plus the generated key event_id in staging)
Entities	16 (15 countries + EU aggregate EUU)
Year span	1900–2025
Empty values	0
Duplicate events	0
Units of measurement	none; all descriptive columns are text

Columns

The file has no natural key, because a country can have several events in one year; the staging table adds the surrogate key `event_id`.

Column	Type	Description	Example
event_id	INT UNSIGNED, auto-increment	Surrogate key generated on load (not in the CSV)	42
year	SMALLINT	Year of the event	1974
country_iso3	CHAR(3)	ISO3 code; EUU = European Union	PRT
country_name	VARCHAR(20)	Country name (max. 14 characters)	Portugal

Column	Type	Description	Example
event	VARCHAR(150)	Event description (max. 101 characters)	Carnation Revolution (25 April); military coup ends the Estado Novo; transition to democracy
category	VARCHAR(30)	Type of event (max. 22 characters)	Political
economic_impact	VARCHAR(50)	Short label of the economic effect (max. 37 characters)	Regime change

Categories and impact labels

There are 10 base categories plus 5 compound ones that combine two types (War/Health, War/Industry, Integration/Industry, Infrastructure/Economy, Integration/Security), each used once.

Category	Events
Political	102
Economy	90
Integration	40
War	39
Financial	32
Infrastructure	31
Industry	20
Geopolitical	13
Social	10
Colonial	5
Compound categories (5)	5

`economic_impact` is free text with 212 distinct labels, most used once. The most frequent are Pandemic shock (15), Monetary union (12), Regime change (11), European integration (8) and State creation (7).

Coverage by country and decade

Portugal, the focus country, has 125 of the 387 events (32%) and is the only country with events after 2020; each comparison country has 15–22.

Country	ISO3	Events	First year	Last year
Portugal	PRT	125	1900	2025
Germany	DEU	22	1900	2020
Poland	POL	21	1900	2020
Estonia	EST	21	1900	2020
France	FRA	19	1900	2020
Spain	ESP	19	1900	2020
Greece	GRC	19	1900	2020
Latvia	LVA	19	1900	2020
Romania	ROU	18	1900	2020
Italy	ITA	17	1900	2020
Ireland	IRL	17	1900	2020
Lithuania	LTU	17	1900	2020
Czechia	CZE	17	1918	2020
Hungary	HUN	16	1900	2020
Belgium	BEL	15	1900	2020
European Union	EUU	5	1957	2007
